

Description of Operations

Neuro Solutions International (NSI) educates about the Developmental Sequence and related activities. The Developmental Sequence includes patterned movements, mobility, and multi-faceted sensory experiences to encourage a richer quality of life as it pertains to the client's goals.

Disclaimer

It is important to note that the NSI does not clinically diagnose any medical conditions such as ADHD, Autism, Asperger Syndrome (ASD), PDD-NOS and other ASD's (autism spectrum disorders). The NSI subscribes to a holistic approach based on neuromotor skill development.

NSI consultants are educators and many are not physicians, psychologists, or credentialed mental health workers. The scope of the NSI consultation services does not include the treatment or diagnosis of specific illnesses or disorders. If a client suspects that they may have an ailment, illness or mental health concern that may require medical attention they are encouraged to consult with a licensed physician without delay.

Please note that while people generally experience richer life experiences as a result of implementing the activities in the Developmental Sequence NeuroSolutions international nor its consultants promise or guarantee a cure or treat specific symptoms.
